Dear Mom & Dad

So far I think I will enjoy my job. I am typing the data from lab tests & chemistrys and also filing some of the back log of bills. There is about 40 patients per day & the doctors that refer them to the lab (Dr Feinberg seems to be the boss.) have to be billed for the tests done. A nice girl is showing me the ropes. I will be working on Saturdays sometimes, but will get another day off instead. The stenogirl in the house works as legal secretary & is nice. I will work from 8:30 - 6:00 for a few days till I get accustomed to the work. . . . I walk to work & back. I visit for

Love, Sylvia
